Krumenacher While the recipes sound really good, someone really needs to proof read this. The instructions are horrible. In quite a few recipes, they leave out when to add ingredients, I mean they aren't added period. Luckily, I know how to bake, but this book would be very confusing for a novice. I paid \$3.95 even though it said "free". I did know that, so beware if you think it's free. 1 of 1 people found the following review helpful.
