Sal Westrich : New Jersey Wine: A Remarkable History (American Palate) before purchasing it in order to gage whether or not it would be worth my time, and all praised New Jersey Wine: A Remarkable History (American Palate):

The finely aged story of New Jersey wine is older than the United States itself. As early as 1767, the colony's wines

were garnering awards from London's Royal Society of the Arts. The vineyards continued to grow through some of the country's most turbulent times. In 1864, at the height of the Civil War, Renault Winery was founded, and it continues to operate today. While Prohibition nearly destroyed the industry, in 1933, the founding of Tomasello's Winery in Hammonton helped revive it. In 1980, only seven wineries were in operation, but by 2011, the state boasted over thirty-four--many of which are winning awards in some of the world's most respected wine competitions. So grab a glass and join winemaking expert Sal Westrich as he tracks the history of New Jersey wine, accompanied by photos by John Muth.
