In fact, I was a little disappointed when I realized they were microwavable cakes. But I am absolutely impressed. I am a very experienced baker, so I know good cakes. You can't believe how easy and tasty these cakes are. Who would have ever thought. It's perfect for when you want something quick, tasty, and easy without going through the trouble (and calories) of a whole cake. We were so happy with the book, we even bought one as a gift. Highly recommended!0 of 1 people found the following review helpful. Five StarsBy Kim SwainI'm domestically challenged but these recipes look easy and delicious, can't wait to try one out!
