Seriously loving this cookbook - the tartines recipes range from simple to complex, and all I have tried are really tasty and many have become regular items on my menu. My one complaint, and why it doesn't get 5 stars for the KINDLE version - there is no place, other than the index, where the tartine recipes are listed individually - it makes finding those favorites a bit of a pain. Of course, it's possible to bookmark, but I have SO many bookmarks that sorting through also takes time... a small complaint, but worth noting I think :),

Absolutely love this book! So much inspiration for having fun in your kitchen. Toast could be boring/ the same every day, OR you could have fun with it! The photos are beautiful and the recipes are well-written. I highly recommend this as an addition to your cookbook collection- or even a book to set on your coffee table!
