Jeani Mohindra : Parsi Kitchen (Chefs Special) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Parsi Kitchen (Chefs Special):

0 of 0 people found the following review helpful. Not much to the book but nicely written By C. J. Thompson This is just a tiny little book with only 50 recipes, but what those that are provided are nice easy to follow. More photographs would have been nicer and the book would be much improved with a larger format.

This is a simple, informative guide to Parsi Cooking. Includes background on their cooking methods, several recipes

and beautiful illustrations.
