Douglas Sutherland : Pastry Work and Confectionery Handbook (Catering) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pastry Work and Confectionery Handbook (Catering):

Trade paperback, 1985. 160 total pages, with bw photos. Most interesting volume, which thoroughly covers the subjects, imparting knowledge on flours, fats used in pastry work, eggs, yeast, sugar, dairy products, and everything else you could possibly think of relating to pastry.
