2 of 2 people found the following review helpful. Best baking cook book everBy someoneThis book is my all time favorite baking cook book. I highly recommend this book to anyone who would like to try an array of fun and tasty recipes. Some of my favorite regular recipes came from this book. Although opinions do differ. I gave it to someone as a gift and they didn't like it they said the recipes didn't work. I think that person just may have made a mistake in a recipe and gave up, and didn't try any of the others. You have to be willing to experiment and have a joy for cooking and creating, it can be great fun! Every time I cook something from this book I am complimented and plates empty in seconds!!! Everyone says it's the best baking they have ever had ;) thanks Nick Malgieri ;)And not to mention the book is so large that you can just read through it for hours and hours looking at all the fun recipes and dreaming up ideas. Anyways I personally love, love, love, this book, and would recommend it to anyone!0 of 0 people found the following review helpful.
