By having a variety of recipes available, you will avoid the food boredom that usually causes people to overeat and gain weight.What Does a Paleo Diet Entail?Essentially a Paleo diet has you eating like our ancestors did before the agriculture revolution. They only ate what they could find on the land or hunt down and kill. It has also been referred to as the caveman's diet which makes it sound even more primal.The Paleo diet is not a fad diet, but a lifestyle you choose to adopt vs. going on and off it again. Many people follow a modified version of a Paleo diet and still see great results. You always have the choice to go full Paleo or just eliminate some of the foods it suggests.Here are just some of the foods you get to enjoy:Fresh fruits and vegetables (moderate the amount of starchy vegetables you eat)All meats (preferably grass fed) and fish/seafoodEggsNuts and seedsHealthy fats and oils – coconut, olive, walnut, flaxseed, avocadoA Paleo diet also has a list of foods it recommends you moderate or eliminate based on the fact our ancestors would not have had access to these foods. You will find that list inside the introduction.Why Bother With Paleo Smoothies?Convenience leads to weight gain but can also lead to weight loss. It is a powerful tool. Eating a pound of vegetables a day can seem like an inconvenience but drinking a couple weight loss shakes that support your Paleo eating is super convenient.If you don't make eating healthy feel convenient, you will eat unhealthily. It is that simple.A Paleo diet derives its health benefits from the fact you cut the crap and add in ample amounts of vitamin and anti-oxidant loaded fruits and vegetables. If you are not a fan of chewing cup after cup of broccoli and kale then smoothies will be your saving grace.You are going to see a different approach inside "Paleo Smoothies." Inside you will find shakes that do not claim to burn fat off your body because the fact is not many weight loss shakes ever really do that.Instead, you will see smoothies that support muscle growth and maintenance.The secret behind fat burning is having as much lean muscle tissue as you can. When you see someone that has a body you want, you may believe it is fat loss that made their body look that way. Actually fat loss was the second step. The first was molding all that lean muscle you see while losing fat. The more lean muscle you maintain, the easier it is for you to lose fat.Time To EatDownload and start enjoying your recipes right away.Scroll to the top of the page and select the buy button.
