Camilla V. Saulsbury : Piece of Cake!: One-Bowl, No-Fuss, From-Scratch Cakes before purchasing it in order to gage whether or not it would be worth my time, and all praised Piece of Cake!: One-Bowl, No-Fuss, From-Scratch Cakes:

0 of 0 people found the following review helpful. Really Great and Easy CakesBy AerieThe recipes are excellent and I am a good cook, known for my baking as well. The Red Velvet with Cream Cheese Frosting was excellent, aka, the bomb! I have found it easy to make small substitutions if I was out of something or did not have enough, such as using 3 eggs instead of 4 in the New York-Style Crumb Cake, which was even better the second day. In the aforementioned Red Velvet Cake, one time I didn't have enough red food coloring, only one and a quarter bottles out of the two that were required and it still came out fabulously. The second time I made that cake, I also added Heath Toffee chips to the frosting. Oh my goodness... Any time I made a change, I leave a note for myself in the recipe to keep track of the change and the results. I always make a recipe as stated by the author the first time and then if I need to make changes I do that the subsequent times. I am very pleased with this cookbook because it is sensible, logical and provides a delicious cake that I'm happy to serve to friends and family!12 of 12 people found the following review helpful. Camilla's best book yet!By PBandJulieI own several of Camilla Saulsbury's cookbooks, and she never fails to produce well-written, easy to follow, and creative recipes. Piece of Cake is no exception -- it might even be her best cookbook yet! From sheet cakes to bundts to "Luscious Layer Cakes," this book truly contains something for every cake-worthy occasion. The only problem is figuring out which cake to try first (I'm eyeing the Salted Caramel Peanut and Chocolate Upside-Down Cake though. How good does that sound?)Very smart to create a spiral binding of the book-- makes it very user-friendly in the kitchen. Also, the tips, variations, and storage directions that are included with each

recipe are a nice touch.Happy baking!16 of 16 people found the following review helpful. Amazing and wonderful!
Highly recommendedBy Eleanor CornerThis has got to be one of the best baking cookbooks I've ever used and I've
been baking for over 40 years! It's very straightforward, easy to follow, and more than anything the cakes are beyond
delicious. There are recipes for sheet cakes, layer cakes, snack cakes, and more. I've sampled recipes from every
section with much success.
