John Phillip Carroll : Pies Tarts (Williams-Sonoma Kitchen Library) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pies Tarts (Williams-Sonoma Kitchen Library):

5 of 6 people found the following review helpful. Should have purchased the newer versionBy KateI was torn on whether to purchase this older version or the newer one. One reviewer who purchased the newer version for a gift commented that they perused the new version and wasn't as impressed. They owned the older (this) version and preferred it much over the newer one. They went on to say the newer version had "fancier recipes that people rarely make" while the older version contained "more basic pies". When I received and then reviewed this older version I actually found quite the opposite.This older version has strange recipes such as "persimmon chiffon", "pineapple cream", "orange meringue", "grape tart" and "Banbury tart". What was truly disappointing was this version has no classic apple pie recipe. Sure, it has apple crumb, apple-pear, apple-walnut custard tart, cranberry-apple, free-from apple tart, and spiced applesauce pie. But there is no standard apple pie which was a big reason I wanted the book. Granted I can get this recipe online straight from Williams Sonoma's site but still.While this book does appear to have some nice recipes I think I'll be returning it for the newer version. Nothing personal but obviously people's taste vary. I checked out the index for the new version and those recipes sound more my style.For anyone wondering this older version contains 50 recipes with full-page, full-color photographs. It is put together in the same easy to follow format as all W/S cookbooks I've seen. I attached an image of the index page which lists all the recipes. Hopefully you can zoom in to read them but it gives you an exact alphabetical listing of each recipe.1 of 1 people found the following review helpful. Good job. Thank youBy JOE MURDOCKItem as described. Good job. Thank you.1 of 1 people found

the following review helpful. Five StarsBy Barb Tompkinsitem as described, thanks!
