This book is so clear with instructions and so easy to read while assembling the ingredients that it has become my favorite. Of course the results are fantastic which is the main goal. A winner at a great price with great delivery!!!5 of 5 people found the following review helpful. Great Muffin RecipesBy Theresa SwanI purchased this cookbook several years ago. I have made many of the muffins in different sizes (just adjusted the cooking time). I especially enjoyed the streusel-topped pumpkin muffins (made into the jumbo muffins), plump carrot muffins and the banana oat muffins (made into the mini muffins). The book gives tips, recipes variations and beautiful illustrations for every recipe in the book!0 of 0 people found the following review
