Her method works FANTASTIC...so I was curious as to Chef Kolpas and his influence on her recipe. I wrote down his sourdough recipe and one other, then donated the cookbook to my local public library. It was worth purchasing this - I now have the complete picture of what I want to know! Update: have now made the sourdough crust many times and the most wonderful thing to discover is CONSISTENCY, absolute flavorful and wonderful pizza dough!0 of 0 people found the following review helpful. Best Pizza Cookbook. Ever.By Twin2thMy favorite pizza cookbook; this one's for a close friend, as I have two other copies! I've made tons of the pizzas over the years to regular rave reviews; friends have told me to open a pizzeria. LOL!0 of 0 people found the following review helpful. Bored with pepperoni and cheese?
