GR Publishing : Pizza for Every Meal Occasion before purchasing it in order to gauge whether or not it would be worth my time, and all praised Pizza for Every Meal Occasion:

Though it was originally created in Italy, pizza has become the ultimate American food. In fact, in America, we

consume about 350 slices of pizza each second and almost 100 acres of pizza per day! For many, pizza is the cuisine of choice and this cookbook makes it even easier to cure those cravings. Featuring pizza recipes for breakfast, lunch, dinner, dessert, parties and even pizza for one, this book is the ultimate gift for all those pizza lovers. A great gift for graduates, singles and families!
