This is an AMAZING pizza cookbook...!!!!By John William BanchemoThis is an AMAZING cookbook that features for the most part the pizzas experienced in little out of the way pizzerias found throughout provincial Italy, I've made five pizzas from this book and have been very happy with them. How great to see a full sized hi-definition photo of what the finished pizza is to look like!!! This book is for sure a definite winner, take this from me who's been a cook both in the States and Italy! You could say that the price of the book is worth the photos alone; if you have dedicated cooks in the family this book is for them.3 of 3 people found the following review helpful. Very unique bookBy DollyBought this as a gift and it was well received. Love that the book is shaped like a pizza and that it is illustrated with photos that make your mouth water. Paired with a pizza stone and cutter this was a great gift item.8 of 8 people found the following review helpful.
