Anne Wilson : Pizzas Melts before purchasing it in order to gage whether or not it would be worth my time, and all praised Pizzas Melts:

2 of 2 people found the following review helpful. a very good recipes and handy on the kitchenBy A CustomerFirst thing is just that it is very handy, small and thin. So it`s much easier then have this big book on you cookingplace. The pictures that show you how to do stuff is very nice to have if you are a bit unsecure on how you are doing stuff. And the icons that show you what recipe that is best for you to make, easy, medium, hard. So you don`t start making the hardest dinner when you are just a beginner. If you like to make food I would definitely recommend this book.I have the book on Norwegian, but I don`t think that makes a different.

A variety of delicious toppings and bases are featured in Pizzas and Melts. We'll show you how to make all your favorites, including Ham and Pineapple Pizza, Tuna Subs and many others.
