George Robertson : Port (Faber Books on Wine) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Port (Faber Books on Wine):

0 of 0 people found the following review helpful. Tasty subject By Francis G. Robertson First saw the book during a river cruise in Portugal on the Douro River, from where the historic British firms have exported port wine for about 150 years. It caught my eye because the author's name, George Robertson, is pretty similar to my name, Francis George Robertson. An interesting subject.

Provides an account of the wine and of the wine-trade in Portugal. It is a concise account of the making of port, from the grape to the blending and maturing of the wine as well as a guide to choosing, storing, serving and drinking the dessert wine of port.
