It is well done and easy to use. I always enjoy the fun Lindy Smith puts into her creations. Excellent for a beginner and fun for the advanced. There is such a bit of whimsy about her things, you always smile when making a cake with her ideas. These cakes can be made and done without having to tie up your kitchen and table for days on end, too. The Ballet Star cake is sure to please any girl up to about 12 or so and the Catapiller Cake is my favorite. He is adorable and she uses real

cabbage leaves to impress the fondant on the cake board so it seems real. There's a purse for the more sophisticated. The down side of these cakes is their size. You would really have to put most of these cakes onto bigger cakes in order to feed all but the smallest group, but that is certainly doable. 15 of 16 people found the following review helpful. Brilliant Novelty Cake Book By Marc Levy Lindy Smith is one of the most exciting designers of novelty cakes out there, with a fresh and lively style that exudes innovation and imagination. The cakes here, which are mostly intended for children, are often cute, but never cutesy. Her style is detailed, though she's working in bolder strokes here than in her previous book, "Hobby Cakes", since these are, at least nominally, supposed to be quick cakes. Speed is relative, and here I think that "quick" means that an experienced amateur should be able to decorate each cake in no more than 8-10 hours, but the results are worth the effort.

From a fun monster, cute caterpillar and pretty princess to a fast fighter jet and terrifying shark, gold award winning cake designer, Lindy Smith has created an amazing collection of novelty cakes to thrill and inspire. Each quick and clever cake design includes comprehensive stages of instruction together with stunning step-by-step photography to ensure success. Timesaving shortcuts are also included for those last-minute cakes.
