It shipped very quickly too which was a really pleasant surprise. All in all, a great buy even though shipping was a bit high.0 of 0 people found the following

Sweet!By CaroleeWhen I worked as a personal chef, this was one of the books I used for desserts. I love it. My fiance loves it. He would search for cakes and insists I make them. Easy to follow instructions. You just can go wrong.

Provides a useful resource for the full-time or part-time cake maker, and is illustrated throughout with colour photographs.
