**Richard Olney : Romanee Conti** before purchasing it in order to gage whether or not it would be worth my time, and all praised Romanee Conti:

2 of 2 people found the following review helpful. Historical Document. Research Tool. Wine Book. By Aaron Encyclopedic, One of the best books on the subject. Intensely detailed notes of historic events and the role the wines of the DRC took in those events. Well documented sourcing of notes from many centuries including roman era writers, pre-revolution, post-revolution sources, modern, and contemporary books in french, and english. 1 of 1 people found the following review helpful. This book is a fantastic history but it's a slog. By Bob from Michigan This book is a fantastic history but it's a slog. Very dry, lots of detailed history and definitely not an easy read. Recommended only for people who are very interested in the history of the vineyard. 0 of 1 people found the following review helpful. Five Stars. By Peter Overton Informative.
