**Lee to Chun : 'Round the World Cooking Library: Chinese Cooking** before purchasing it in order to gage whether or not it would be worth my time, and all praised 'Round the World Cooking Library: Chinese Cooking:

0 of 0 people found the following review helpful. Not terrible but not very goodBy C. J. ThompsonI have seen worse Chinese cookbooks than this but there is very little inside to make it a worthwhile purchase. The recipes are very much geared towards western cooks, especially the thick, sugary sweet and sour sauce used in several dishes. Only a few dishes are illustrated and the few pictures that are provided are, unfortunately, distinctly unappealing.

A very good illustrated book on Chinese cooking, its history and recipes.
