6 of 6 people found the following review helpful. Spectacular Recipes for Cupcakes and FrostingBy Kathleen T DillenbeckSara Winlet writes some of the best recipe books I have ever used. This one is on a par with her other excellent work. Not only are there a number of recipes for mouth-watering cupcakes, but there are also ELEVEN recipes for frosting, including one I found particularly appetizing - German Coconut Pecan Frosting. You will

probably get a sugar high from just reading the recipes.0 of 0 people found the following review helpful. Can't wait to tryBy z3I have read through the recipes and there are many very yummy looking ones that I can't wait to try out. The recipes are written clearly and look easy enough to do.For the one reviewer that wondered how the colors where so intense, my answer to that reviewer is to use gel food coloring. You can buy this at craft stores or online. Wilton makes it. It is also known as icing colors. This type of food coloring gives a much more intense color than the liquid food color you can buy at the grocery store. The gel color is more of a paste and a little goes a long way and gives very intense color. It also lasts a long time and doesn't dilute your recipe.The author gives some good tips at the beginning of the book to help insure success in baking. I look forward to trying out some of the recipes. The ones I am not considering are only due to personal taste preferences and nothing more.0 of 0 people found the following review helpful. Cant wait!By Purple713I can't wait too try some of these recipes. They all look and sound delicious. My kitchen is going to be a busy one.

Cupcakes have become quite popular over the last few years. Most cities have at least a few if not several cupcake stores which sell tasty but very expensive treats. This book offers a wide variety of scrumptious cupcake and frosting recipes which taste better, are easy to bake, and cost much less than those available from retail cupcake stores. With any of my cupcake recipes and minimal time and effort, you can easily bake delicious cupcakes that your family will love.
