2 of 3 people found the following review helpful. DeceptionBy PatagonianI really get very dissappointed with this uml;bookuml;.... It certainly is not a book, just a folder in black and white with some instructions which it's very unlikely to cost the 30something USD that it costed me...Very basic, took more than a month to arrive...I've made a big mistake buying it... So, don't make the same!!!
