SASSY STRONG SMART SEXY AND STUBBORN FEMALE CHARACTERS. EVERY ADDITION IS EXCEPTIONALLY WELL DEVELOPED AS YOU'LL FIND.5 of 6 people found the following review helpful.
Reader's Digest to Empress New Clothes?!?!?!By pixxiestarrAfter reading the Empress' New Clothes, I couldn't wait to read about Seized. Black had created a great relationship and strong chemistry between Kyra and Zor, and I was looking forward to a similar development with Geris and Dak. Not so. This book acted as a supplemental to the first book. I didn't see a fully developed relationship between these two characters which was a shame because there really aren't that many romance books out on the market today that deal with interracial relationships involving African Americans and Caucasians. The "steamy" scenes that existed were too short. Geris and Dak's main function is to provide "comic relief" for the remaining players. This book is focused on creating hilarious moments rather than erotic scenarios. After Black created such a fascinating world in the first book, I was anticipating additional sub plots in this book...nowhere to be found. Plus for 11.99, this book is only 145 pages!!! Although I plan on purchasing other Jaid Black books, this one was let me down. Don't buy this book. I wish that someone had written a review like mine before I purchased it.3 of 3 people found the following review helpful. HmMMM - this one was differentBy BajanReaderLet's see where do I begin? Ok - I liked Dak very much - he's the strong and sensitive type - very dedicated to the one he loves. Geris is a strong woman and thankfully she was not represented as a generalised version of a black woman as some authors like to do... but she was strong and intelligent but a little mean at times but hey, what do you expect from a woman who's been kidnapped by a giant and taken to another planet? I guess all in all she handled it well - seeing as she had no one or nothing on earth to stay for anyways.BUT (there's always a but) I had some issues with some of the sexual encounters depicted throughout the book. I know, I know its erotica and a fantasy erotica at that, but the way the women were used made me take pause. It just seemed like a sex fest where the women were there to serve the men and take whatever sexual depravity was dished out to them... what little story there was was interesting but sometimes the scenes seemed to jump from one scenario to the next leaving me feeling a little disoriented - making me go back to the last page to ensure I didn't miss a page or something! I would have liked to give it 4 stars but those who are looking for a great story interspersed with interesting love scenes would agree that 3 stars is better for a goodish story with out there sex scenes.Hope this helped!

1.5 in the series Trek Mi Q'an There is only one person on Earth who ever mattered to Geris Jackson and that one person is her best friend Kyra Summers (The Empress' New Clothes). When Kyra is kidnapped, Geris fears nobody will believe her tale about the giants with the glowing blue eyes who snatched her best friend away, so she sets out to find Kyra herself. Suffering disappointment after disappointment, Geris begins to give up hope. She gets the surprise of a lifetime when one of the giants who stole her best friend hunts her down and claims her for his own. Publisher's Note: We advise you to read this installment after No Fear. The Trek series should be read in the following order: Book 1, Book 2, Book 3, Book 4, Book 4.5, Book 5, Book 1.5, Book 5.5. We apologize for any confusion, however, we cannot change the name of a title after it has been released!

About the AuthorJaid Black is a novelist for Ellora's Cave, Berkley/Jove, and most recently, Simon Schuster (Pocketbooks). Her earlier (steamy but not erotic) titles can be found under the pen name Tia Isabella. A single mother, Jaid and the kids enjoy traveling together as time allows. When Jaid gets her way, which usually involves a lot of begging and dire threats, they head toward Europe. When the kids get their way, which is usually the case, they head for Disney World. In addition to writing erotic romances, Jaid also collaborates on horror novels and screenplays (horror and romantic comedies) with fellow EC author Claudia Rose. Their joint pen name is Millar Black.
