It has many interesting recipes that include both smoothies made of fruit and vegetables. He includes a section on the importance of cleaning your liver but never says which of his smoothie's will do the job. So if you are looking for some interesting smoothie recipes this might work for you. If you are looking for a diet to follow, keep looking. But the good news is it's free...1 of 1 people found the following review helpful. Yumminesss!By Kindle CustomerLots and lots of smoothies that are actually easy to make. A good reminder or primer on dieting attitudesBy stringsThis book is a good reminder of a lot of good practices we need to do to maintain a healthy diet. It doesn't preach but gives good reasons why to say, not eat "diet foods" as they have so many preservatives and you're still hungry after you eat them. Many good tips. I like to read a few chapters every day to use the book like a coach speaking to me to help me stay on track on my diet.
