I bought two copies of this book, one to give away and one for myself. I also made a batch of bacon cheese biscuits to split between my dog, my bf's brother's dog (who was receiving the second book), and my bf's parents' dog (not receiving a book - I knew they wouldn't want to spend the time to make their own treats). The treats went over very well with our three beagles (another reason I like the rebranding of this book). I'm not sure if my bf's brother and his wife ever made treats, but I have several times, so I think this is a great book. The batches are large, so if I'm not giving some treats away I'll freeze

half of the dough. The cookie cutters are also pretty large, so I mostly use the smaller bone-shaped one. Or sometimes I'll just make the dough into small circles by hand. All of the recipes have turned out well. I don't stick too strictly to the given ingredients (the introduction even mentions helpful substitutions and addresses all of the gluten-free flour options you can use). I think the biggest hit - with my dog, who stared at me making them, licking her lips, and with my bf's brother's dog and the usually very reserved dog of my trainer - was the pumpkin treats with roasted squash instead. 0 of 0 people found the following review helpful. Wonderful By Danielle Hensley It was in great condition with a quick delivery. The only bad thing was it didn't come with the cookie cutters. I will definitely enjoy making these with my granddaughter friends. Scooby Doo Maggiemoo will love them. 0 of 0 people found the following review helpful. He loved them! Very cute book and cookie cutter set By Deborah Andrade bought a few of these to give as gifts. Kept one for myself and made some of the cookies for my dog. He loved them! Very cute book and cookie cutter set. Healthy treats for dogs, much better than store bought treats.
