Her technique for getting dough to rise in a cold kitchen works beautifully. The Honey-Wheat bread is fantastic! I'm looking forward to trying some of the others. 1 of 1 people found the following review helpful. A "Gotta Have" By Susan Mack Davis I bought this book several years ago and then taught my sons how to make bread. I am sure I gave each of them a copy of the book but they claim not so just reordered one for my oldest son who enjoys making sourdough breads. As an "old baker," this book has appeal for the experienced but also takes the process to a beginner level so has vast appeal. Her recipes are outstanding and delicious. You won't make a mistake buying this book!! 0 of 0 people found the following review helpful. Great instructional sourdough book.
