I think this author either thinks we know what an ingredient is, or wants to get the cookbook out so fast he truly doesn't care if we want to prepare a recipe but are unfamiliar with an ingredient or don't have a clue where to find it. Maybe even if there's a common ingredient we can substitute. A lot of cookbooks suffer in this way, so this isn't directed solely to this author. I'm literally drooling over some of these recipes - the pictures help - but because I don't know where to get some of these ingredients, I am lost.2 of 2 people found the following review helpful. Outstanding collection of cookbooks!By BuckhouseI found this bundle of 120 recipes and I knew I had to have it. I've been a vegetarian for some time now and I know that the Asian culture eats less meat than the U.S. culture. This book was full of fantastic recipes, including many vegetarian recipes. I recommend this collection to anyone looking to add some delicious southeastern Asian recipes t their collection.
