My daughter and I both love it. More useful information than what I was ... By Kelley Jordan Cute book! My daughter and I both love it. More useful information than what I was expecting. Illustrations are good. We cannot wait to try sushi now! 0 of 0 people found the following review helpful. Loved the book! By Lana Wonderful book, with lot's of pictures, words written in Japanese with translation and English pronunciation. I pleasantly surprised my sushi chef last week with couple of words and phrases I learned from this book. Highly recommend!

While eating out in Japan can be an exotically delicious dining experience, it is not without its potential pitfalls. How do you tell a poisonous piece of puffer-fish from an innocuous piece of sushi? Squeamish About Sushi is a tantalizing, tongue-in-cheek guide to Japanese food--an indispensable reference for ex-pats, visitors, and Japanophiles everywhere!
