RowellWanted a copy for a friend have had mine since 1979 given to me by my Chinese step father who's father was a chef, such a great real Chinese cookbook3 of 3 people found the following review helpful. An old classicBy Kevin Andrew MurphyI knew Stella years ago. This cookbook is filled with great recipes, beautiful illustrations, and fun anecdotes about daily life to introduce the various sections. Rather than being a book of modern recipes, this focuses on the classics you find at every Chinese restaurant and how to recreate them at home.1 of 1 people found the following review helpful. The best Chinese cookbook ever published!By E. YeeI've been looking to buy this cookbook because the one I got over 30 years ago as a gift is so torn and over-used. I have never found a Chinese cookbook with tips and so good like Stella Chan. It makes mediocre home cook like professional. All recipes are excellent and easy to follow, I wish someone writes a similar excellent Chinese cookbook. Thanks Stella Chan! The book arrived in excellent condition.

This is a beautifully illustrated Chinese cookbook.
