Great Organization, Graphics and layout of recipes - with variations.By Lu CWhat a great book, well organized, many bread recipes with a variety of options. Nice graphics - very much recommend for the beginner as instruction are very easy to follow. The average person will find some nice variety - I'm looking forward to using several of the recipes. Best yet is having them in one place. Yes, you can get a lot of recipes on line, but nice as a reference or gift !.4 of 4 people found the following review helpful.
