Kate Weatherell : Sugar and Spice before purchasing it in order to gage whether or not it would be worth my time, and all praised Sugar and Spice:

A delightfully written and mouthwateringly evocative collection of recipes shows just how the clever use of spice transforms the world of puddings, ices and desserts. In a nation converted to the wonders of spice, and addicted to the food of the sub-continent this radical new cookery book breaks new ground and appeals to the sweet-toothed spice lover in us all.

About the Author Kate Weatherell is the co-author of the highly praised Blistering Barbecues (Absolute Press). She is an experienced chef and caterer, having worked with Antony Worrall-Thomson, when he ran the famous 192

restaurant in Kensington, and has worked closely with the distinguished food writer Elisabeth Luard. This is her first solo-authored book.
