Bottles of HopeBy Mayd MarianWill be using these ideas to create Bottles of Hope that are given out free to cancer/chemo patients to send them with words of comfort and hope for healing. This is an international project among polymer clay artists everywhere.

Frances has a unique ability to create beautifully crafted models in sugarpaste, which shersquo;s able to break down into simple, achievable steps. Like the sugar dogs, the cats in this book resemble real cats rather than fun cartoon

characters, and this will be the book's USP. A variety of cat types are included, such as a Burman, tabby, Siamese and endless variations of the 'moggy' — not to mention kittens, ginger toms, etc. — all in various poses (sleeping, playing, etc.) — and there's even a tiny sugar mouse and some butterflies. As with her previous books, this book will include a section on the materials needed, and each project will show all the component parts of the finished cat, with instructions on how to construct it. This will be an ideal book for sugarcrafters wishing to create the perfect cake topper for their cat-loving friends and family.

Learn how to make 20 cute sugar cats and kittens using easy techniques and inexpensive materials. Everything is explained and no previous experience of sugar crafting is needed. The materials used are widely available and there are very clear step-by-step instructions. * Machine Knitting Monthly *About the Author Frances McNaughton's sugarcraft books have become international bestsellers. She has been a tutor and demonstrator for many years, teaching all aspects of sugarcraft to students from beginner to advanced level. She travels all over Europe providing demonstrations and workshops for exhibitions, shops, groups and clubs and has fans in the US, Australia and New Zealand through her online tutorials and sugarcraft products. Frances has made sugarcraft props for the films Notting Hill, Chocolat, Charlie and the Chocolate Factory and three of the Harry Potter films.
