This book I love. I like colored pictures and this doesn't have them but the smoothies are simple, not too many exotic ingredients. I've only tried one recipe which is delicious and easy. The first pages of the book list red smoothies, green smoothies, etc. I'm high-lighting about five at a time with the ingredients I have or can get and trying them. I then mark them as good, excellent, etc. I added some cucumber to the watermelon smoothie today, just a little and it's so refreshing. I absolutely love this book. All of these recipes have only a few ingredients, which I like because of storing too many things. Also, when bananas, any fruit or vegetable gets a little more ripe than I like, you can use them in a smoothie. Saves throwing many things out. We're retired, I don't want to cook all the time so this morning I made the watermelon smoothie and I had made zucchini bread a few days ago, the smoothie has Chobani yogurt in it which has 12 grams of protein in it so all in all, a decent breakfast for my husband and no cleanup. I bought another book too which is more complicated and has a lot of ingredients which I will refer to and probably use too. I'm glad I have that one too. It's Superfood Smoothies by Julie Morris. Also got the Superfood Soups by Julie Morris.
