From Brand: Parragon Inc : Sushi: A Collection of over 100 Essential Recipes before purchasing it in order to gauge whether or not it would be worth my time, and all praised Sushi: A Collection of over 100 Essential Recipes:

2 of 2 people found the following review helpful. Awesome Find of Inventive Classic Recipes By SCoppola I found this book first at TJ Maxx for the same price. I was gifting it to my Uncle for his Birthday when my step- father saw it and totally wanted to keep it for himself!! There are a lot of unique recipes in this book which have a picture next to it so you can get a visual along with the steps to complete it (which is nice for us visual learners!). After finding the book here on (which is amazing let's all agree on that) I gifted it to my step- father and he was so pleased with it. There are some fun sushi recipes inside that even use Egg to replace the seaweed wrapping. It really is a great book on sushi that covers not only the basics but more inventive recipes as a way to modernize it! 0 of 0 people found the following review helpful. Did not find this very helpful By Heathos Was not very clearly written. I own MANY cookbooks, and got this when first interested in making sushi at home. It was a bunch of rather boring sushi 'standards' [if you eat sushi, you know what that means] served in fancy ass ways. SUCH AS- Make all the ingredients for roll, but chop up and dump on seaweed chip Have owned for a few years, and mostly just takes up space. The pictures do not inspire me to copy or create. 0 of 0 people found the following review helpful. It is okay. Has a few good recipes. By Tom KPlaced different cover on very similar book. I purchased both and only difference was re-published date.

VERY-GOOD HARDBACK
