**Jessica Dreyher, Encore Books : Sushi Rolls - The Ultimate Recipe Guide** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Sushi Rolls - The Ultimate Recipe Guide:

1 of 1 people found the following review helpful. more like a booklet  
By Barrett This book, more like a booklet, is pretty uninspiring and a bit of a letdown. The most enticing element of the guide is the cover photo (as others have noted, this is the ONLY photo). "Impress your friends and family at dinner parties with an exquisite array of sushi rolls. We have collected the most delicious and best selling sushi rolls from around the world...." I'm not quite sure that "Hot Dog," "Bagel," "PBJ," and "Mac and Cheese" Sushi rolls are taking over the culinary scene internationally.... To be frank, this feels like someones PTA project picked up steam after the neighborhood parents told the author that the recipes were "so fun for the kids, you should make a book and sell it on!"  
4 of 4 people found the following review helpful. Repetitive and poorly organized  
By Khardeen This book is a nightmare to read and find a recipe you want. It has cooking instructions for rice on almost every roll and would have been better off with an Excel spreadsheet of

what ingredients go in each roll. Zero pictures so I have no idea what these are even supposed to look like.0 of 0 people found the following review helpful. Really interesting looking recipes!By MadeupaginNot your "normal" sushi cookbook! There are several here that even a toddler would enjoy (there's one here with mac cheese and a hot dog!!!) which any two year old will love and get them used to the idea of eating "sushi" stopping any "I don't like that" later. Many great ideas for my husband and I, who have no GOOD sushi places nearby . . . not as good as these homemade!

If you love sushi rolls, but can not afford to go out to eat all the time, this book is filled with great ways to make sushi rolls at home. With a little practice, these rolls will be as good as the ones at the restaurants. It is fitting that budding home sushi cooks can easily make these rolls at home. Impress your friends and family at dinner parties with an exquisite array of sushi rolls. We have collected the most delicious and best selling sushi rolls from around the world. Enjoy!
