Incredible recipes - from classics to a host of new spins, including Nutella Banana Bread, Greek Yogurt Blueberry muffins, Carrot Cake Cheesecake (beyond awesome), Cocoa Chocolate Layer Cake, even terrific preserves to go with the baking - along with great tips and a wonderful chapter of delicious teas that you can make yourself. I call a cookbook like this PERFECT. I love the sidebars - it is great to get Marcy Goldman's professional advice - I find that I get perfect results every time. I use her method for baking biscotti - they look absolutely professional each time and they are delicious! This book is a joy to read - and fun to bake from. The bonus offer of 4 months free access to Betterbaking.com is an extra treat. I bought her "When Bakers Cook" cookbook last year (it is on the Washington Post's "Best Cookbooks of 2014"). My family is hooked on the

Brownie Stuffed Tollhouse cookies from that book. What will I bake next? That is my only problem - each page is a recipe I want to try. Thank you Marcy for another fabulous cookbook. 5 of 5 people found the following review helpful. I love Marcy's books

By MDG Once again Marcy Goldman has achieved Baker's Nirvana! I read a cookbook like a novel and put so many bookmarks that it's difficult to choose which one to make first! The instructions are always clear and concise. I know that the finished product will be exactly as it should. Looking forward to hours of happy baking and happy recipients of delicious creations.....!
