John Woods, Keith Rigley : The Beers of Wallonia: Belgium's Best Kept Secret before purchasing it in order to gage whether or not it would be worth my time, and all praised The Beers of Wallonia: Belgium's Best Kept Secret:

0 of 0 people found the following review helpful. Hidden treasure revealed...By Noel MolloyWallonia's beers and culture have lain hidden for centuries under the weight of their flemish and french equivalents. The Walloons have enjoyed their anonymity. But no longer! The authors traversed the french speaking half of Belgium and have uncovered a vast wealth of liquid gold....and reds, blonds and wheat coloured beers. Their enthusiasm for their task knew no bounds as they tracked down small family run brasseries in out of the way places that would do justice to the beerhunter himself, Michael Jackson. They have rated the beers using scales of their own tastes, as well as expectation for the tastes of others.Their descriptions of small unique breweries such as l'vapeur were captivating.One developed a severe thirst as one read. The book itself is not a coffee table exhibit as those from Mr. Jackson, but well worth the read, and one which I will bring to Belgium on my next trip there.
