Every kind of brownie you can think of and more!By <http://www.writergazette.com>This book is jam-packed with helpful brownie-making tips as well as 50 variations of brownies and blondies! Being a lover of anything chocolate, I set out to try the recipe entitled "Sensationally Chewy Brownies" (pg.34), wondering if I'd really get chewy ones. I was happily surprised! The recipe was very easy to follow, quick to make, and incredibly addictive! I give this 'short but sweet' cookbook a two thumbs up and recommend it to everyone! Hint: This would make a great gift to a fellow chocoholic!1 of 1 people found the following review helpful. Recipes don't workBy Thomas C. WheelerWhen I've baked recipes from this book, I've invariably ended up with a failed recipe. I've carefully followed the instructions and made no substitutions and every time ended up with a pile of chocolate flavored goo that couldn't be cut or served. Not sure if the recipes were never tested or if there was some critical misprint in the ingredients. Don't waste your money.1 of 2 people found the following review helpful. disappointedBy Vicky MarstellerThe book arrived late even though I ordered it in plenty of time. It was much smaller than an ordinary cookbook which makes it incovenient to store with normal cookbooks.
