Good recipes, but a very small bookBy Gordon M. WagnerWhich is odd... I mean REALLY small, smaller than a 4x6 index card. Bizarre. There are a couple of recipes for crepes and some helpful information, the rest of the book is recipes, most of which sound pretty good. I didn't realize it was a dinky little book when I ordered it. Not really easy to read. I mean, if you needed a crepe recipe book to take with you backpacking where space and weight are issues... but this is going to live in the kitchen with my other cookbooks. So it's kind of unfortunate it's not 5x8 or so... a more or less standard size.Oh, well. Live and learn.0 of 0 people found the following review helpful.
