Don't buy this book, you will be disappointed By continuous learner The book popped up in the advertising section of the search engine I was using and I said to myself, how can I go wrong with a book that costs \$2.60. WELL, the book is not worth it. All of the useful information can be found on the first 2 pages and is all info you can find elsewhere (where you might find better recipes as well). The Best 50 Wok Recipes is the kind of book that is sold on supermarket check out lines. Save your money 2 of 2 people found the following review helpful. Decent Resource By SGU_Mom I bought a number of cookbooks from this series at one time, and while they are a nice resource, I think they are overpriced. Possibly I'm spoiled, but I like my cookbooks to have pictures of each recipe. For 50 recipes with neither pictures nor nutritional information, IMHO, \$1.50 would be a better price than \$5.95. I expected more for my money. 0 of 0 people found the following review helpful. Five Stars By noneto Gave it as a gift to someone who loves to cook but doesn't have much time.
