It's basically a book of recipes all done in the slow cooker. I'm no great cook so this got my attention straight away. There are many reasons why the casserole is a great thing in this fast food rush hour world of ours and the biggie is health. The ingredients Soule gives can be healthy. Just cutting out the processed food from our diet would be a big step forward and M Soule gives the road map through these twenty plus recipes. It's another book for printing out, either on cards or your favorite way of filing and keeping close to the cooker for easy reference. I'll be trying a lot of these delicious looking recipes myself. Definitely worth the read - A good book. 0 of 0 people found the following review helpful. Great for busy families! By B.L. Asselin Deliciousness within an hour - yes, that's what I want! And I can't thank the author more for this super-useful book. Time is what I'm always short of, so cooking these 'dump dinners' will be right for me. I went through the recipes, and every one of those seemed so enticing, especially my all-time favorite chocolate cake! There aren't too many recipes, but the ones that are there are quality ones. A must-have cookbook for busy professionals. 0 of 0 people found the following review helpful. there are sooooo many awesome recipes in this box set that I don't think ... By J Grey This is the ultimate dump dinner box set. there are sooooo many awesome recipes in this box set that I don't think i'll have time to get through them all ;) both cook books are well laid out and easy to follow. grab a copy and start enjoying your dump dinners today :)
