So I was excited to get the book on my Kindle. I started to read it and, imagine my surprise to have it end half way through the story. Fortunately for me, I have a printed copy so can finish reading it there....not my preference due to my eyesight.....the kindle is so much easier to read. That is the only reason I am giving this only one star. If the entire book was there, I would give it a 5. With all the books I have on my Kindle, this is the 1st time such a thing has happened and I am not happy about that.3 of 3 people found the following review helpful. Just part of the book.By MGI have a hardback version of The Big Fisherman, and was greatly disappointed to find the Kindle version end at Chapter 10 instead of Chapter 30.Its a wonderful story, a story that should be told in its entirety, but the Kindle Format is terrible.3 of 3 people found the following review helpful. Half the book is missing!By hockeyfan7This is not the complete story and half the book is missing. Total waste of money and time. Do not buy.
